Welcome to Cypress Placement Paper. here you will find Cypress Semiconductor Placement Paper Pattern, Download Question of Cypress Placement Paper 2011 with Answers, Solutions.

Cypress Placement Paper 2011:-

1. What is the output of the program

```
#include<stdio.h>
#include<conio.h>
void main()
{
char *st1[3]= {"Hello","World","Oracle"};
*st1=st1[2];
st1[1]=*st1;
free(st1[0]);
free(st1[1]);
clrscr();
printf("%s %s %s",st1,st1[1],st1[2]);
getch();
}
// A. Garbage Garbage Oracle
// B. oracle oracle oracle
// C. Hello World Oracle
// D. Core Dump:cannot Print after freeing the memory
```

Ans: D

2. What is the output of the program

```
void main()
{
int i,j,k,n=5;
clrscr();
for(i=5;i>0;i--)
{
j=1
k=n&j;
k==0?printf("0"):printf("1");
}
getch();
}
```

A. 00011
B. 11110
c. 11001
D. 11100

Ans: B. 11110

3. What is the output of the program

```
void main()
{
char s[]="oracle is the best";
char t[40];
char *ss,*tt;
while(*tt++=*ss++);
printf("%s",t);
getch();
}
// A. oracle is the best
// B. Core dump
// c. Error Message
// D. Goes into infinite loop
```

Ans: B. core dump (Garbage value)

4. A certain number of men can finish a piece of work in 10 days. If however there were 10 men less it will take 10 days more for the work to be finished. How many men were there originally?

(A) 110 men
(B) 130 men
(C) 100 men
(D) none of these

5. In simple interest what sum amounts of Rs.1120/- in 4 years and Rs.1200/- in 5 years ?

(A) Rs. 500
(B) Rs. 600
(C) Rs. 800
(D) Rs. 900

6. If a sum of money compound annually amounts of thrice itself in 3 years. In how many years will it become 9 times itself.

(A) 6
(B) 8
(C) 10
(D) 12

7. Two trains move in the same direction at 50 kmph and 32 kmph respectively. A man in the slower train observes the 15 seconds elapse before the faster train completely passes by him.
What is the length of faster train ?

(A) 100m
(B) 75m
(C) 120m
(D) 50m

8. How many mashes are there in 1 square meter of wire gauge if each mesh is 8mm long and 5mm wide ?

(A) 2500
(B) 25000
(C) 250
(D) 250000

9. What is the maximum size of the page ?

a] Characters wide & 265 characters length
b] Characters wide & 265 characters length
c] Characters wide & 80 characters length
d] None of the above

Ans : B

10. A FORM is madeup of which of the following objects

a] block, fields only,
b] blocks, fields, pages only,
c] blocks, fields, pages, triggers and form level procedures,
d] Only blocks.

Ans : C

11. For the following statements which is true

1] Page is an object owned by a form
2] Pages are a collection of display information such as constant text and graphics.
a] Only 1 is TRUE
b] Only 2 is TRUE
c] Both 1 & 2 are TRUE
d] Both are FALSE

Ans : B

12. What is a trigger

a] A piece of logic written in PL/SQL
b] Executed at the arrival of a SQL*FORMS event
c] Both A & B
d] None of the above

Ans : C

13. Which of the following is TRUE for a ERASE packaged procedure

1] ERASE removes an indicated Global variable & releases the memory associated with it
2] ERASE is used to remove a field from a page
1] Only 1 is TRUE
2] Only 2 is TRUE
3] Both 1 & 2 are TRUE
4] Both 1 & 2 are FALSE

Ans : 1

14. There are six steps that lead from the first to the second floor. No two people can be on the same step Mr. A is two steps below Mr. C Mr. B is a step next to Mr. D Only one step is vacant (No one standing on that step) Denote the first step by step 1 and second step by step 2 etc.

1. If Mr. A is on the first step, Which of the following is true?

(a) Mr. B is on the second step
(b) Mr. C is on the fourth step.
(c) A person Mr. E, could be on the third step
(d) Mr. D is on higher step than Mr. C.

Ans: (d)

15. If Mr. E was on the third step & Mr. B was on a higher step than Mr. E which step must be vacant

(a) step 1
(b) step 2
(c) step 4
(d) step 5
(e) step 6

Ans: (a)

16. If Mr. B was on step 1, which step could A be on?

(a) 2&e only
(b) 3&5 only
(c) 3&4 only
(d) 4&5 only
(e) 2&4 only

Ans: (c)

17. If there were two steps between the step that A was standing and the step that B was standing on, and A was on a higher step than D , A must be on step

(a) 2
(b) 3
(c) 4
(d) 5
(e) 6

Ans: (c)

18. The ratio between the radius and height of a cone is 3:4. What is the curved surface area of the cone?

1) 15p m2
2) 12p m2
3) 9p m2
4) Data inadequate
5) None of these

19. A man stands on the top of a pole and makes an angle of 60° on the surface of a ground. He slides 20 m down and makes an angle of 30°at the same point. If he takes 10 seconds to reach the ground from here, find his speed.

1) 6 km/hr
2) 5 km/hr
3) 10 km/hr
4) 8 km/hr
5) 10.80 km/hr

20. Which of the following values of 'n' satisfies the in-equality n2 - 24n + 143 < 0?

1) n < 11
2) n > 13
3) 11 < n < 13
4) 11 > n > 13
5) None of these

21. If 2x+y = 11, 2y+z = 12 and z+2x = 8, find the value of 2x + 3y +4z.

1) 29
2) 33
3) 25
4) 39
5) None of these

22. If Alex collected 54 coins, we can say (on the basis of information obtained so far) that difference in nos. collected by the boy who collected the most and the boy who collected the 2nd most should be at least

1. 30
2. 34
3. 26
4. 12

23. Alex collected 54 coins. If Calvin collected 2 more than double the no. collected by Dorna, the no. collected by Calvin was

1. 10%
2. 30%
3. 22%
4. 26 %

24. How many nos. are there between 100 and 200 both inclusive and divisible by 2 or 3?

1. 67
2. 68
3.. 84
4. 100

25. Find the greatest no. that will divide 964,1238 and 1400 leaving remainder of 41,31 and 51 resp.

1. 58
2. 64
3. 69
4. 71

Company Cypress

About Cypress :-

Cypress delivers high-performance, mixed-signal, programmable solutions that provide customers with rapid time-to-market and exceptional system value. Cypress offerings include the flagship PSoC® programmable system-on-chip families and derivatives such as PowerPSoC® solutions for high-voltage and LED lighting applications, CapSense® touch sensing and TrueTouch™ solutions for touchscreens. Cypress is the world leader in USB controllers, including the high-performance West Bridge® solution that enhances connectivity and performance in multimedia handsets. Cypress is also a leader in high-performance memories and programmable timing devices. Cypress serves numerous markets including consumer, mobile handsets, computation, data communications, automotive, industrial and military. Cypress trades on the NASDAQ Global Select Market under the ticker symbol CY.

Working at Cypress - Why should i join Cypress?:-

Cypress rewards success and hard work by providing a highly competitive flexible benefits package including stock options, which make each employee a corporate owner. Add to that an employee stock-purchase plan, a bonus program for published engineers/authors, and continuing technical and managerial training, and you have a comprehensive package that is hard to beat.

Equal Employment

Cypress Semiconductor is an Equal Opportunity Employer. Applicants for all job openings are welcome and will be considered without regard to marital status, race, color, religion, national origin, sex, age, sexual orientation, ancestry, veteran status, medical condition, gender, physical or mental disability, creed, or status with regard to public assistance. It is the intent of Cypress to comply with all applicable federal, state, and local legislation concerning equal opportunity employment.

Welcome to Cypress Placement Paper. here you will find Cypress Semiconductor Placement Paper Pattern, Download Question of Cypress Placement Paper 2011 with Answers, Solutions.

Cypress Placement Paper 2011:-

1. What is the output of the program

```
void main()
{
int j[10]={9,7,5,3,1,2,4,6,9};
int i=1;
clrscr();
for(;i<9;i++)
printf("%d ",--j[i++]);
getch();
}
// A. 6,2,1,5
// B. 6,2,1,5,7
// c. Error Message
// D. core dump
```

Ans: A. 6,2,1,5

2. What is the output of the program

```
void main()
{
int i,j,k;
i=2;
j=4;
k=i++>j&2;
printf("%d\n",k);
if(++k && ++i<--j|| i++)
{
j=++k;
}
printf(" %d %d %d",i,-j--,k);
getch();
}
// A. 4,-3,2
// B. 5,-3,2
// c. 4,-2,2
// D. 5,-2,2
```

Ans: D

3. What is the output of the program

```
void main()
{
fork();
printf(" Hello World");
getch();
}
// A. Hello World
// B. Hello World Hello World
// c. Error Message
// D. None of these
```

Ans: B

4. what is the output of ..

```
#include
void main()
{
char buffer[10]={"Genesis"};
printf("%d",&buffer[4]-(buffer));
}
```
a. 3
b. 4
c. 0
d. illegal pointer subtraction

5. what is the output for
```
#include
main()
{
static int a[]={5,10,15,20};
int * ptr=a;
int ** ptr_ptr=&ptr;
printf("\n %d",**ptr_ptr++);
}
```
a. 5
b. 10
c. 15
d. 6

6. A certain number of men can finish a piece of work in 10 days. If however there were 10 men less it will take 10 days more for the work to be finished. How many men were there originally?

(A) 110 men
(B) 130 men
(C) 100 men
(D) none of these

7. In simple interest what sum amounts of Rs.1120/- in 4 years and Rs.1200/- in 5 years ?

(A) Rs. 500
(B) Rs. 600
(C) Rs. 800
(D) Rs. 900

8. What will be the value of svar after the execution ?

a] Error
b] 10
c] 5
d] None of the above

Ans : A

9. Which of the following is not correct about an Exception ?

a] Raised automatically / Explicitly in response to an ORACLE_ERROR
b] An exception will be raised when an error occurs in that block
c] Process terminates after completion of error sequence.
d] A Procedure or Sequence of statements may be processed.

Ans : C

10. Which of the following is not correct about User_Defined Exceptions ?

a] Must be declared
b] Must be raised explicitly
c] Raised automatically in response to an Oracle error
d] None of the above

Ans : C

11. A Stored Procedure is a

a] Sequence of SQL or PL/SQL statements to perform specific function
b] Stored in compiled form in the database
c] Can be called from all client environments
d] All of the above

Ans : D

12. Which of the following is not an infinite loop?
(A) x=0; (B) # define TRUE 0....
do{ While(TRUE){....}
/*x unaltered within the loop*/ (C) for(;;) {....}
....}
While(x==0); (D) While(1) {....}

13. Output of the following program is

```
main()
{
int i=0;
for(i=0;i<20;i++)
{
switch(i){
case 0:
i+=5;
case 1:
i+=2;
case 5:
i+=5;
default:
i+=4;
break;
}
}
}
```

(A) 5,9,13,17 (B) 12,17,22 (C) 16,21 (D) syntax error.

14. For the decades, Muslim countries had the highest birth rates in the world.

1) During decades
2) For decades
3) Almost during the decades
4) Since decades
5) No correction required

15. Since change is gradual, the old values have not disappeared by any means.

1) with any sort
2) by any efforts

3) by any single means
4) for any mode
5) No correction required

16. A boat covers 24 km upstream and 36 km downstream in 6 hours, while it covers 36 km upstream and 24 km downstream in 6.5 hours. Find the speed of the current.

1) 1 km/hr
2) 2 km/hr
3) 4 km/hr
4) 8 km/hr
5) None of these

17. A bag contains 3 red, 4 black and 2 white balls. What is the probability of drawing a black and white ball in two successive draws, each ball being put back after it is drawn?

1) 8/81
2) 9/81
3)7/81
4) 4/81
5) None of these

18. Find the approximate value of the following equation. 6.23% of 258.43 - ? + 3.11% of 127 = 13.87

1) 2
2) 4
3) 8
4) 6
5) 10

19. A train overtakes 2 persons walking at 3 km/hr and 5 km/hr respectively in the same direction and completely passes them in 8 seconds and 10 seconds respectively. Find the speed of the train.

1) 15 km/hr
2) 13 km/hr
3) 10 km/hr
4) 10 km/hr
5) None of these

20. The ratio between the radius and height of a cone is 3:4. What is the curved surface area of the cone?

1) 15p m2
2) 12p m2
3) 9p m2
4) Data inadequate
5) None of these

21. A man stands on the top of a pole and makes an angle of 60° on the surface of a ground. He slides 20 m down and makes an angle of 30°at the same point. If he takes 10 seconds to reach the ground from here, find his speed.

1) 6 km/hr
2) 5 km/hr
3) 10 km/hr
4) 8 km/hr
5) 10.80 km/hr

22. Which of the following values of 'n' satisfies the in-equality n2 - 24n + 143 < 0?

1) n < 11
2) n > 13
3) 11 < n < 13
4) 11 > n > 13
5) None of these

23. If 2x+y = 11, 2y+z = 12 and z+2x = 8, find the value of 2x + 3y +4z.

1) 29
2) 33
3) 25
4) 39
5) None of these

Directions for Questions 24 -28 In each of the following questions, some sentence are given which are on the same theme. decide which sentence is the most preferable with respect to grammar; meaning and usage, suitable for formal writing in English. Find the correct sentence.

24. A. Our school had won the match if only we have concentrated .

B. Our school would have won the match if only we would have concentrated.
C. Our school would win the match if only we had concentrated.
D. Our school had won the match if only we would have concentrated.
E. Our school would have won the match if only we had concentrated.

Ans: E

25. A. He will not pay unless he is not compelled
B. He will not pay unless he will be compelled .
C . He will not pay unless he is compelled
D. he will not pay till he i s compelled.

Ans: C

26. A. Since he lacked needed money , he never turned down anyone who needed help.
B. He wasn't rich by any means, although he never turned down anyone who needed help.
C. Being not rich by any means, but he never turned away anyone who needed help.
D. He wasn't rich by any means, but he never turned away anyone who needed help.
E. Since he wasn't rich by any means, he never turned away anyone who needed help.

Ans: D

27. A) I was asked to stop writing.
B) She denied to go with me.
C) My hairs stood on end.
D) I am reading this novel for four days.

Ans. D

28. A. The teacher asked the student with a frown on his face, to leave the room.
B. The teacher asked with a frawn on his face the student to leave the room.
C. With a frawn on his face, the teacher asked the student to leave the room.
D. The teacher asked the student to leave the room with a frawn on his face .

Ans: C

29. Find the greatest no. that will divide 964,1238 and 1400 leaving remainder of 41,31 and 51 resp.

a. 58
b. 64
c. 69
d. 71

30. If all 6's get inverted and become 9's , by how much will the sum of all nos. between 1 and 100 both inclusive change?

a. 300
b. 330
c. 333
d. none of these

job details:

Company Name :	Cypress Semiconductor Technology
Job Description :	This position is for Application Engineer and responsibilities willinclude: Provide application support to customers for new and existing memory products including Async SRAMs, through system and device level analysis of existing and emerging applications Debug of customer issues and finding solutions Needs to work on models (IBIS, Verilog)

	Provide WPP support through application notes, datasheets, behavioral models and hardware models
Experience Level :	0-2Years
Job Requirements/ Skills :	Requires a good working knowledge of digital logic design and CMOS logic Requires a good knowledge of circuits Experience in IBIS models development will be preferred Experience with Logic Synthesis tools is also preferred Good problem solving skills Ability to work with cross functional teams Strong oral and written communication skills
Educational Qualification :	UG – B.Tech,B.E. – Electrical, Electronics,Telecommunication, PG – M.Tech – Electrical, Electronics,Telecommunication

-Job Details--

Experience:0 - 2 Years
Location: Bengaluru/Bangalore
Compensation: Industry Standards
Education:UG - B.Tech/B.E. - Electrical, Electronics/Telecomunication PG - M.Tech - Electrical, Electronics/Telecomunication

Industry Type: Semiconductors/ Electronics
Role: Hardware Design Engnr
Functional Area:IT-Support, Telecom, Hardware
Posted Date:13 Jan

Requirement:

- Requires a good working knowledge of digital logic design and CMOS logic
- Requires a good knowledge of circuits
- Experience in IBIS models development will be preferred
- Experience with Logic Synthesis tools is also preferred
- Good problem solving skills
- Ability to work with cross functional teams
- Strong oral and written communication skills

Job Profile: This position is for Application Engineer and responsibilities will include:

- Provide application support to customers for new and existing memory products including Async SRAMs, through system and device level analysis of existing and emerging applications
- Debug of customer issues and finding solutions
- Needs to work on models (IBIS, Verilog)
- Provide WPP support through application notes, datasheets, behavioral models and hardware models

Company Profile: Cypress Semiconductor Corporation engages in the design, development, manufacture, and marketing of digital and mixed-signal integrated circuits for networking, wireless infrastructure and handsets, computation, consumer, automotive, and industrial markets.

It operates through three segments: Memory, Non-Memory, and SunPower. The Memory segment designs and produces static random access memories (SRAMs). It offers various SRAM products, including fast asynchronous SRAMs, double data rate SRAMs, More Battery Life and micropower SRAMs, No Bus Latency and synchronous burst SRAMs, and Quad Data Rate SRAMs, as well as offers image sensors.

The Non-Memory segment offers dual-port memories; first-in, first-out memories; framers; Grating Light Valve; high-speed optical transceiver link physical layer devices; network search engines; physical layer devices; QuadPort datapath switching elements; programmable clocks; programmable logic devices; Programmable System-on-Chip reconfigurable mixed-signal arrays; registered buffers; RoboClock clock buffers; USB controllers; and WirelessUSB controllers.

Applications Engineer- Cypress Semiconductor Technology India Pvt. Ltd

Posted on:	15-Dec-2010
Job Title:	**Applications Engineer- Cypress Semiconductor Technology India Pvt. Ltd**
Company Name:	**Cypress Semiconductor Technology India Pvt. Ltd**
Job Description:	Job Specific Requirements: Critical Skills

* Requires a good working knowledge of digital logic design and CMOS logic

* Requires a good knowledge of circuits

* Experience in IBIS models development will be preferred

* Experience with Logic Synthesis tools is also preferred

* Good problem solving skills

* Ability to work with cross functional teams

* Strong oral and written communication skills

Skill Set:

Job Description:

This position is for Application Engineer and responsibilities will include:

* Provide application support to customers for new and existing memory products including Async SRAMs, through system and device level analysis of existing and emerging applications

* Debug of customer issues and finding solutions

* Needs to work on models (IBIS, Verilog)

* Provide WPP support through application notes, datasheets, behavioral models and hardware models

Job Category: Telecom / Electronics / Electrical / Semiconductors

Qualification: B.Tech/B.E. - Computers

Location: Bengaluru/Bangalore

Experience: 0 - 2 Years
